CoD:WaW PC Patch 1.3 has released

The CoD:WaW PC Patch 1.3 has released today. If you're a console player, this really is irrelevant to you – but for all the PC fans, read on!

This patch is incremental, so you will be required to have Patch 1.2 installed in order to install 1.3. The most notable additions to this patch are the /record and /demo commands which allow you to record and view your MP matches for submission to tournaments, leagues, etc.
